REPORT OF EXAMINATION

To: Tampa
Orlando RA
SA Nickolas B. Savage
TFO John Steven McElyea

Date: December 16, 2008

Case ID No.: 7A-TP-71176

Lab No.: 081002002 TO NR
081021021 TO NR

Reference: Communications dated October 1, 2008 and October 20, 2008

Your No.:

Title: CAYLEE MARIE ANTHONY - VICTIM
MISSING / ABDUCTED MINOR
ORANGE COUNTY, FLORIDA

Date specimens received: October 2, 2008 and October 21, 2008

The following specimens were received under cover of communication dated October 1, 2008, assigned FBI Laboratory Number 081002002 TO NR and examined in the DNA Analysis Unit I:

ITEMS FROM 1998 PONTIAC SUNFIRE GT, FL TAG G63 XV

Q47 Car seat (OSCO Item #30, Q-45)

Q48 Steering wheel cover (OSCO Item #6, Q-41)

Q55 Debris from spare tire wheel well (OSCO Item #8, Q-43)

Q56 Swab from spare tire wheel well (OSCO Item #9, Q-44)

For Official Use Only

8374

The following specimens were received under cover of communication dated October 20, 2008, assigned FBI Laboratory Number 081021021 TO NR and examined in the DNA Analysis Unit I:

K5 Buccal sample from CINDY ANTHONY (OCSO Item #2, K-13)

K7 Buccal sample from GEORGE ANTHONY (OCSO Item #5, K-15)

K9 Buccal sample from LEE ANTHONY (OCSO Item #2 of 3, K-17)

This report contains the results of the serological and nuclear DNA analyses.

Results of Examinations:

Specimens Q47, Q55 and Q56 were examined for the presence of blood; however, none was detected. Specimen Q48 was visually examined for the presence of blood; however, none was detected.

Specimens Q55, Q56, K5 (CINDY ANTHONY), K7 (GEORGE ANTHONY), and K9 (LEE ANTHONY) were subjected to deoxyribonucleic acid (DNA) typing by the polymerase chain reaction (PCR) at the amelogenin sex typing locus, the nine short tandem repeat (STR) loci of the AmpFℓSTR® Profiler Plus™ *ID* PCR Amplification Kit and, where appropriate, the six STR loci of the AmpFℓSTR® COfiler™ PCR Amplification Kit.[1]

The STR typing results from specimen K9 (LEE ANTHONY) were compared to the STR typing results from specimen Q18-1 (CAYLEE ANTHONY) [submitted under FBI Laboratory Number 080730003 TO NR and reported in FBI Laboratory report dated October 8, 2008].

Based on the typing results from the amelogenin locus (for sex determination), female DNA is present in the DNA obtained from specimen K5 (CINDY ANTHONY). Male DNA is present in the DNA obtained from specimens K7 (GEORGE ANTHONY) and K9 (LEE ANTHONY). The amelogenin typing results obtained from specimen Q56 do not satisfy the DNA Analysis Unit I reporting criteria; therefore, no conclusion can be offered. No amelogenin typing results were obtained from specimen Q55.

No detectable DNA or STR typing results were obtained from specimens Q55 and Q56.

Based on the STR typing results, the DNA obtained from specimen Q18-1 (CAYLEE ANTHONY) could not have originated from a biological offspring of the individual represented by specimen K9 (LEE ANTHONY).

Because no STR typing results were obtained, the tested specimens Q55 and Q56 are not eligible for entry into the Combined DNA Index System (CODIS).

No other serological or nuclear DNA examinations were conducted.

[1] The AmpFℓSTR® Profiler Plus™ *ID* PCR Amplification Kit includes the loci D3S1358, vWA, FGA, D8S1179, D21S11, D18S51, D5S818, D13S317, and D7S820. The AmpFℓSTR® COfiler™ PCR Amplification Kit includes the loci D3S1358, D16S539, TH01, TPOX, CSF1PO, and D7S820. Due to the differences in sample condition and quantity, amplification may not be attempted using both kits.

Remarks:

Upon completion of all the requested examinations, the submitted items will be returned to you under separate cover. For questions about the content of this report, please contact Forensic Examiner Heather Seubert at (703) 632-7488. For questions about the status of remaining forensic examinations, please contact Request Coordinator Erin Martin at (703) 632-7708.

In addition to the evidence in the case, the DNA Analysis Unit I has generated secondary evidence that will also be returned to you. The secondary evidence can be found in a package marked DNA UNIT I SECONDARY EVIDENCE. It is recommended that this evidence be stored in a refrigerator or freezer and isolated from evidence that has not been examined.

Heather Seubert
DNA Analysis Unit I

DNA Analysis Unit I Technical and Administrative Review Sheet

LABORATORY NUMBER(S): 08100200Z TONR, 08102102I TONR

Technical Review		
Report	**Yes**	**N/A**
The report properly references previously tested specimens for which comparisons are being reported.	✓	
All known (K) and questioned (Q) specimens are correctly reported.	✓	
All K and Q specimen matches and non-matches are correctly reported.		✓
All other conclusions (e.g., serological, etc) are correctly reported.	✓	
The report contains results for all of the specimen(s) tested.	✓	
The Combined DNA Index System (CODIS) Case Evaluation Form is correctly completed.	✓	
Case File Assembly		
The appropriate unit examinations have been conducted.	✓	
The Biologist Review Sheet is present from each biologist performing examinations and has been signed and dated.	✓	
All conclusions are within the limitations of the unit's scientific disciplines.	✓	
All conclusions are supported by analytical data.	✓	
All conclusions are consistent with the analytical data.	✓	
All STR typing results are correctly recorded on the STR Typing Results form and/or autoallele call form.	✓	
Statistical calculations are correct for all matching conclusions.		✓
All supporting electropherograms are included.	✓	
Raw data sheets for all controls and sample(s) with no DNA typing results are present and accurate.	✓	
The correct Laboratory number is present on all case file pages.	✓	
All corrections are made using a single strikeout and are initialed and dated.	✓	
Appropriate pages are initialed by the generating Biologist.	✓	
All case note pages are initialed by the reporting Examiner.	✓	
All case notes are recorded in ink/typed.	✓	
The Activity and Communication Log is correctly completed.	✓	
Proper worksheet(s) and incoming communication(s) are present.	✓	
Copies of referenced reports are included.	✓	
The data, results and supporting materials pertaining to this examination were reviewed with all associations, interpretations and conclusions agreed upon.		

Technical Reviewer: [signature] JM 12/4/08

Date: 12/01/08

Administrative Review		
Report	**Yes**	**N/A**
The report conforms to all appropriate Laboratory format and content requirements.	✓	
All administrative information on the report is correct.	✓	
The report properly references previously issued DNAAU I reports.	✓	
The specimen listing is correct.	✓	
All known (K) and questioned (Q) specimen matches and non-matches are correctly reported.	✓	
The report provides results for all of the specimen(s) tested.	✓	
The 7-1 report(s) is signed by reporting Examiner.	✓	
The yellow file copy of the report has been signed and dated by the technical reviewer.	✓	
The Evidence Control Center (ECC) case statistics form(s) is completed.	✓	
The Combined DNA Index System (CODIS) Case Evaluation Form is present.	✓	
The Customer Satisfaction Form (FD-1000) is completed.	✓	
Case File Assembly		
The Technical and Administrative Review Sheet has been signed and dated by the technical reviewer.	✓	
The Chain of Custody and Sample Processing Record form are correctly completed.	✓	
The total number of 7-251 envelopes is represented (e.g., 1 of 2).	✓	
The total page count is correct and recorded on the outside of the 7-251 envelope(s).	✓	
The proper worksheet(s) and incoming communication(s) are present.	✓	
The Evidence Control Center (ECC) Search Slip(s) and Exam Plan(s) are present.	✓	
Copies of referenced reports are included.	✓	
The Activity and Communication Log is correctly completed.	✓	
All reported results are supported by notes of examination.	✓

Title: CAYLEE MARIE ANTHONY - VICTIM
MISSING/ ABDUCTED MINOR
ORANGE COUNTY, FLORIDA

Synopsis: Set lead for laboratory examinations.

Package Copy: Submitted with this EC are the items of evidence as listed on enclosed letter dated 09/29/2008, FBI Lab Submission #6 from the Orange County Sheriff's Office, and a copy of Orange County Sheriff's Office property forms H-52025 and H-60003.

Enclosure: Enclosed for the FBI lab is a copy of the letter dated 09/29/2008, FBI Lab Submission #6 from the Orange County Sheriff's Office and a copy of Orange County Sheriff's Office property forms H-52025 and H-60003.

Details: On 07/16/2008, the Orange County Sheriff's Office (OCSO) opened an investigation into the mysterious disappearance of the above listed two-year old minor who was allegedly last seen on 06/09/2008, by her mother, CASEY MARIE ANTHONY. During their investigation, the OCSO arrested CASEY MARIE ANTHONY for obstruction, providing a false official statement, and child neglect.

On 09/26/2008, IA Karen B. Cowan (ERT) met with the OCSO. IA Cowan learned that the baby car seat used by Caylee Marie Anthony was in evidence storage at the OCSO. In addition, the OCSO would further process the vehicle bearing Florida tag G63 XV, on 09/27/2008. IA Cowan requested the remaining items of evidence from the vehicle be passed to the FBI Lab for analysis in support of the investigation.

Q-43 Scrapings from the spare tire wheel well

Q-44 Swab from the spare tire wheel well

The FBI Laboratory is requested to conduct appropriate examinations on items of evidence listed in body of EC, bearing in mind the history of the investigation to include the possible use of chloroform on the victim. Please examine evidence for additional trace evidence to include hair and fiber. If hair is found, examine for signs of decomposition and conduct DNA analysis if possible. Conduct any other examinations as deemed appropriate. No analysis has been conducted on any item of evidence prior to submission to the FBI Lab.

CASE NUMBER: 08-069208
Missing Person (Child)

Victim: Anthony, **Caylee Marie**
W/F D.O.B. 8 / 9 / 05

Suspect: Anthony, **Casey Marie**
W/F D.O.B. 3/19/86

Vehicle Description
1998/Pontiac/Sunfire GT
White/Two doors/Fl tag# G63
XV/VIN#:1G2JB1243W7596648

I- Synopsis:

On September 26, 2008 at approximately 1400 hours I was informed by ASL Michael Vincent that he had a meeting in the Orange County Sheriff's Office with Karen Cowan from the FBI Orlando Resident Agency. According to ASL Vincent the FBI requested more additional evidence from the vehicle bearing Fl tag **G63 XV** VIN # **1G2JB1243W7596648** . The following pieceS of evidence was collected:

II- Evidence submitted here with:

Art # 1 Sealed yellow envelope containing one plastic container of vacuum sweep.
Q-36
(Item # H-60003)

8384 HS

Art # 2 Sealed yellow envelope containing one plastic container of vacuum sweep. **(Item # H-60003) Q-37**

Art # 3 Sealed yellow envelope containing one plastic container of vacuum sweep. **(Item # H-60003) Q-38**

Art # 4 Sealed yellow envelope containing one plastic container of vacuum sweep. **(Item # H-60003) Q-39**

Art # 5 Sealed yellow envelope containing one plastic container of vacuum sweep. **(Item # H-60003) Q-40**

Art # 6 Sealed paper bag containing steering wheel cover. **Q-41** **(Item # H-60003)**

Art # 7 Sealed yellow envelope containing one plastic container of vacuum sweep. **(Item # H-60003) Q-42**

Art # 8 Sealed yellow envelope containing one plastic container of scrappings. **(Item # H-60003) Q-43**

Art # 9 Sealed yellow envelope containing one plastic container of vacuum sweep. **(Item # H-60003) Q-44**

Art # 30 Sealed box containing baby car seat "Eddie Bauer" **Q-45** **(Item # H-52025)**

III- Examination request:

Art # 1, Item # H-60003 to Art 9 H-60003 and **Art 30, Item # H-52025** requested per Karen Cowan, FBI Orlando Resident Agency, on behalf of FBI Lab for further analysis.

V- Examination report:

Please return the evidence along with the examination report to the following address:

FBI Lab Submission # 7

CASE NUMBER: 08-069208
Missing Person (Child)

Victim: Anthony, **Caylee Marie**
W/F D.O.B. 8 / 9 / 05

Suspect: Anthony, **Casey Marie**
W/F D.O.B. 3/19/86

081021021

I- Synopsis:

On October 7, 2008 at approximately 1400 hours I was informed by ASL Michael Vincent that he had a meeting in the Orange County Sheriff's Office with Special Agent Nick Savage from the FBI Orlando Resident Agency. According to ASL Vincent the FBI requested more additional evidence related with this case. ASL Vincent collected from Mr. George Anthony, Mrs. Cindy Anthony and Lee Anthony sample of buccal swabs and hairs. ASL Vincent transferred to me the following pieces of evidence:

II- Evidence submitted here with:

Art # 1 Sealed yellow envelope containing petri dish with hairs from Cindy Anthony **(Item # H-60061) K-12**

Art # 2 Sealed yellow envelope containing 2 buccal swabs from Anthony Cindy. **(Item # H- 60061) K-13**

8396

Art # 4 Sealed yellow envelope containing Petri dish with hairs from George Anthony. **(Item # H-60061) K-14**

Art # 5 Sealed yellow envelope containing 2 buccal swabs from George Anthony. **(Art # H-60061) K-15**

At approximately 1635 hours I met with ASL Michael Vincent in the Forensics Lab. ASL Vincent informed me when he opened the box he observed what appeared to be two human hairs. One was attached to a napkin that was collected from him and placed in the plastic bag and the other was located over the piece of napkin that was inside the box. I proceeded to photograph the hairs and I collected the following piece of evidence:

Art # 1 Sealed yellow envelope containing Petri dish with hair. **(Art # 1, Item # H- 60074) Q-46**

On October 8, 2008 ASL Michael Vincent collected from Mr. Lee Anthony sample of buccal swabs and hairs. ASL Michael Vincent transferred to me the following pieces of evidence:

081021021

Art # 1 Sealed yellow envelope containing petri dish with hairs from Lee Anthony **(Item # H-60068) K-16**

Art # 2 sealed yellow envelope containing 2 buccal swabs from Lee Anthony. **(Art # H-60061) K-17**

III- Examination request:

Art # 1, 2, 4, 5 Item # H-60061 , Art 1 Item # H-60074 and **Art,1,2 Item # H- 60068)** requested per Special Agent Nick Savage, FBI Orlando Resident Agency, on behalf of FBI Lab for further DNA analysis.

Note: Please compare DNA profile of Lee Anthony against DNA profile of Caylee Anthony.

IV- Examination report:

Please return the evidence along with the examination report to the following address:

CSI- II Gerardo Bloise
Forensic Unit
2500 West Colonial Dr

FBI Laboratory
Activity and Communication Log

Laboratory No.: 080730003 TO NR Case ID No.: 7a-TP-71176

Date	Initials	Activity/Communication and Outcome
8/5/08	HS	Spoke with TFO McElyea and SA Nick Savage. Let them know that I would be the Examiner assigned to the case and we had received some of the items. They indicated that they will be sending the entire tire cover along with some swabs from a shovel. All communication should go through them or IA Cowan. Cell phone (407)557-4277.
9/8/08	HS	Called ERT Karen Cowan asked her if they still had the shovel. Gave her preliminary results from that item. She would determine whether or not they still have the shovel. Call back from Karen Cowan, Orange Co. does have shovel. She will be sending it to us. She will draft an EC. I told her if she could also put that no additional tests have been done since the first collection and it has been maintained, that would be good. She agreed. H called Erin Martin, ECU, to advise her the shovel would be submitted.
9/12/08	HS	Spoke with SA Savage. Unquiry about paternity testing/reports & let him know we could not sample, generate results and send our report to a laboratory for the statistical component. It has been a lab that has assisted us in the past. He agreed. They do not have sample, yet. Looks like the individual will not cooperate.
9/15/08	HS	Looked at shovel w/ LPOM. Identified areas they could process and allow us to swab.

HS 9/17/08
8399 HS

9/15/08 HS She called SA Savage to determine preference for exams LPN vs. DNA. He said to go ahead and do what we need to do. So we decided to swab entire handle.

10/8/08 HS Id spoke with SA Savage. Explained mixture on toothbrushes. Mixtures detected - based on sharing of the DNA on one toothbrush with Mom, making assumption that is Caylee's type. They were collected from Grandmothers house. Caylee is the only grandchild. They are sending samples from Grandma, Grandfather, and Brother. He would like us to submit Brother's results w/ Caylee and Casey to UNT lab if possibility of parentage is present in results.

Importance: High

SENSITIVE BUT UNCLASSIFIED
NON-RECORD

Karen,

Please go to the following website to obtain more information about submitting evidence to FAVIAU:
http://30.18.201.161/faviau/

If you submit the photo to us we can attempt to improve the visibility of detail in the image, including any signs of impressions or stains. I would also request (demand?) that you send us ALL of the photos of the trunk, as we are likely to be able to learn a lot more from multiple photographs of the same features, particularly if taken from different angles and different lighting conditions.

Furthermore, we want to have the original photos shot by OCSO - not prints or photocopies. If they were film negatives, we want the film negatives. If they took digital photos, we want the raw files that were saved on the camera, or EXACT, bit-for-bit duplicates of the images that they took. We DO NOT want images that have been emailed through multiple parties. The following web page links to a document on digital image submissions that can provide more information about submitting such photos (look at the right hand side under "Minimum Quality Requirements"):
http://30.18.201.161/FAVIAU/imageanalysis.cfm?page=30

Finally, I would note that, although we may be able to draw conclusions about whether marks represent impressions or stains, for example, we do not report conclusions about what may or may not have left any marks or impressions in cases like this - it is too speculative. Others can draw their own conclusions about that.

Call me if you need more assistance.

Hi Richard,
This is a high profile case that the Lab has been working - the Director has asked about it in his morning briefings before. The ERT agent is Karen Cowan and the primary agent is SA Nick Savage. Not sure if there is anything OTD can do w/ this. Please let me know if you have any suggestions. Thanks.
Erin

Erin,

Please see the attached photo I wrote about earlier. If you look at the circle on top, right underneath, you would see essentially the back of the child. To the left of the circle, following the line of the back, you could make out the bottom of the child then curving down to the legs, bent, in the fetal position. Once again, look at it on the monitor since a printout does not do it justice at all. This photo is untouched, but when we played with some of the shading on a computer, it enhanced the image a bit. Feel free to forward as necessary.

As far as your other question, I would imagine that OCSO lit the interior up looking for additional staining, however, that has not been reported. I am finishing up the EC right now and will forward you a bootleg copy. The evidence will likely be shipped tomorrow.

Hi Karen,
Did they check for any possible 'stains' on the inside of the vehicle (upholstery or carpeting) that may need to be tested for DNAI or CU? Or will we just be getting the vacuum sweepings / car seat? As for the photo...we just have a small black/white shot noting the A and B staining areas and can't see much else in it - I'll ask around in some of the photo/electronic groups if anything can be done - enhancement-wise.

Also, I did put a copy of the Paternity report in the mail to you - mtDNA didn't need to see it.

I'd be happy to look at anything else from the vehicle for additional hairs showing characteristics of decomp. The car has been in law enforcement custody this whole time, correct?

Hi Erin -

I haven't bugged you in at least a week so I figured you might miss me and thought I would write. Hope you are well and can continue offering guidance to the ORA.

We met with the Orange County Sheriff's Office (OCSO) on Friday. I asked a lot of questions about the processing of the vehicle we continue to exploit, and learned some interesting things.

- The baby car seat which was in the vehicle was removed and put into evidence storage. Nothing had been done to it.
- Nothing had been done to the interior, passenger compartment, of the vehicle in question. Nothing.

Perhaps I am a bit overzealous, but when ERT processes a vehicle, we process the WHOLE car. OCSO just processed the trunk. So, I requested the baby car seat be brought out of storage and the interior of the vehicle be processed. Once again, we are not certain of where CASEY ANTHONY did what to CAYLEE, but that car is clearly the focus of the investigation. I would like to send you the car seat and the vacuumings from the vehicle to exploit in the various units of the lab. Okay? Absolutely nothing has been done to the seat and remaining items I will send. OCSO also vacuumed the spare tire well of the trunk and that will be included. Perhaps we can continue the search for additional hairs showing signs of decomposition from that vacuum sweep in particular.

Of note, I also requested the photos that were taken in the processing of the trunk. A very interesting photo exists of the trunk liner, which you have, which highlights the very large stain. If you look closely at this photo, there appears to be the outline or silhouette of a child in the fetal position. You can make out what may be the back, bottom, and legs most clearly. The image is best viewed on a computer screen, rather than a printout, but several of us can see this image and agree there is good chance we are seeing something significant. What can we do with this? Can this be enhanced? Can this be used to further process that liner focusing on certain areas of this stain? Would it be beneficial to send the photo and the liner to the Body Farm for further analysis? Help. I can send you the photo electronically if you would like to query some folks.

Once again, we in the ORA so appreciate the hard work of everyone at the Lab. You guys are terrific and we are indebted. I will be in the office on Wednesday, in and out of meetings. Let's connect when you get a chance to absorb some of this information. Anyone else copied can also weigh in, please!

THANKS!

Package Copy: Submitted with this EC are items of evidence as listed on enclosed letter dated 10/10/2008, FBI Lab Submission #7 from the Orange County Sheriff's Office, and copies of Orange County Sheriff's Office property forms H-60061 and H-60068.

Enclosure: Enclosed for the FBI lab is a copy of the letter dated 10/10/2008, FBI Lab Submission #7 from the Orange County Sheriff's Office and copies of Orange County Sheriff's Office property forms H-60061 and H-60068.

Details: On 07/16/2008, the Orange County Sheriff's Office (OCSO) opened an investigation into the mysterious disappearance of the above listed two-year old minor who was allegedly last seen on 06/09/2008, by her mother, CASEY MARIE ANTHONY.

During their investigation, the Orange County Sheriff's Office arrested CASEY MARIE ANTHONY for obstruction, providing a false official statement, and child neglect.

While in communication with the Orange County Sheriff's Office, it was discussed that the FBI will assist with all out of state leads and with any physical evidence obtained from this investigation.

8408

ASL Michael Vincent, OCSO CSI, collected the following pieces of evidence related to this case for passage to the FBI laboratory:

Property Form - H-60061

K-12 One petri dish containing hairs from Cindy Anthony (Maternal grandmother of missing child, Caylee Anthony)

K-13 Two buccal swabs from Cindy Anthony (Maternal grandmother of missing child, Caylee Anthony)

K-14 One petri dish containing hairs from George Anthony (Maternal grandfather of missing child, Caylee Anthony)

K-15 Two buccal swabs from George Anthony (Maternal grandfather of missing child, Caylee Anthony)

Property Form - H-60068

K-16 One petri dish containing hairs from Lee Anthony (Uncle of missing child, Caylee. Brother of subject, CASEY ANTHONY)

K-17 Two buccal swabs from Lee Anthony (Uncle of missing child, Caylee. Brother of subject, CASEY ANTHONY)

The known samples are submitted to the FBI Laboratory for nuclear DNA testing. It is requested that the FBI Laboratory run the known samples collected from Cindy, George and Lee Anthony for comparison purposes to evidence previously provided to the lab.

NON-RECORD

Hello,
We received the hair/buccal samples from the 3 individuals. The Lab number assigned is: **081021021**. I will bring the items up to DNAI in a few moments. Just to let you know, the EC wasn't uploaded yet. Thanks.
