Brown was advised of his rights and interviewed on Friday, July 16, 1993, at approximately 1:45 pm at the Anson Co. Sheriff's Department by Special Agents M. A. Isley and Bill Lane, both employed with the N. C. State Bureau of Investigation.

Brown gave the following account of his activities concerning Friday, July 9, 1993:

On Friday, July 9, 1993, my mama woke me up at 6 am in the morning. After I get up I took a bath and then walked outside. I live on highway 742 near highway 52, where they are building a bridge. When I walked outside, I started walking down towards Mark Cox's house. Mark Cox's house is located across the street from Mrs. Katherine

driveway. Mrs. Katherine is my
Cousin.

When I was standing next to some
mailboxes on the side of Mrs. Kath-
arine's driveway, I saw Hattie Little
leaving the driveway in a blue
Chevrolet. It looked like she had
her children in the car with her.
I think it was about 7 o'clock.

After I saw Hattie drive away
I walked up the driveway to where
Mrs. Katherine lives. Mrs. Katherine
lives in a white house with a
fence around it. When I walked
up ^{to} the Mrs. Katherine's front door,
^{the} screen door was shut but the
front door was open. I knocked on
the screen door. Mrs. Katherine came
to the screen door and opened it
for me. Mrs. Katherine said my name
Cousin and she hugged me! We
were standing in the driveway with
the screen door against my back when
she hugged me! I was at Mrs. Kath-
arine's house because I wanted to
borrow some money from her and
plus she told me to come back

to see her sometime to do some
yard work. Mrs. Katherine invited
me on into the house. We walked
into the living room where a
little brown heater was sitting.
I sat in a brown chair in the
living room while Mrs. Katherine
sat behind me on a couch. Mrs.
Katherine told me to get the T.V.
and bring it in the living room.
I got the T.V. out of her bedroom
and sat it on the heater in the
living room. I had to move some
stuff to plug in the T.V. We
were watching Andy Griffin but
I didn't get to watch it all.
While I was watching T.V. I asked
Mrs. Katherine if I could have
some water and she said for me
to get it myself. I went into the
kitchen and got a glass from the
kitchen table. I drank the water
while I was in the kitchen and
put the glass back on the table.
Mrs. Katherine was drinking juice
from a glass that had a straw
in it. She was drinking from

a straw because she didn't got no teeth.

When I walked from the kitchen I asked Mrs Katherine for a dollar and she said she didn't have a dollar. When Mrs Katherine told me she didn't have a dollar, I hit her in on the neck with a stick that I brought into the house. I held the stick with two hands when I hit her the first time. I hit Mrs Katherine again, but this time on the right arm. Mrs Katherine threw her hands up in front of her when I was hitting her with the stick. One time when I hit Mrs Katherine she tried to catch the stick with her hands. I didn't hit her that hard. While I was hitting Mrs. Katherine, she fell back on the couch she was sitting on. After she fell down on the couch, I bent down and felt Mrs. Katherine's chest to see if she was still alive and still breathing. Her heart was still beating.

I saw blood on top her head but I didn't hit her in the head. After checking her I help Mrs Katherine to the bathroom because she had to use the bathroom. After getting out of bathroom, Mrs Katherine told me to lay her on her back in her bed room. I checked her chest again and she was still breathing. I left her between her bed and her dresser in the bedroom. Mrs. Katherine was laying flat on her back. I even straighten her legs out.

Before I left the house, I took twenty dollars from a dress in her bedroom. I know yall ain't going to believe me, but Mrs. Katherine told me I could have her money if something happen.

I don't remember what I did with the state when I left the house. After leaving the house through the front door, I walked back to my house and waited for the man to pick me up to take me

To the McLamb workshop in
Hamlet, NC.

I wish Mrs. Katherine was alive
right now. If she was, she would
tell you that I only hit her five
(5) times. And that she was still
breathing when I left the house.

I'm sorry for hitting her. I
told you I made a mistake.

This interview concluded at approx-
imately 3:16pm.
